

Story 1

Apple has been tremendously grown over the years. Since 2006, Apple's revenue has increased every single year, eventhough some downfall in the average revenue was also noticed. For example, the average revenue of \$233.6bn in 2015 had been decreased to \$215.4bn in the next year 2016. By the year 2022 Apple turnovered \$3..
